

# Thermal Fever Screening Solution

## ***NON-CONTACT***

Avoids physical contact and reduces cross-infection risks

## ***Abnormality Alarm***

Automatically emit a buzzer alert to notify operators when people with abnormal temperature are detected.

## ***Crowd Screening***

Moving crowds enables fast pass and eliminates crowd gathering

## ***Data Tracking***

Record abnormal temperature information for further inspection, backup video, snapshot and human portrait

## ***Data Accurate***

High accurate body temperature measurement at  $\pm 0.5^{\circ}\text{C}$   
( $\pm 0.3^{\circ}\text{C}$  with body calibration)

## ***Labor Saving***

Perfect to replace manual fever testing, save much on labor cost and time.
